Open to relocation (UAE, Kazakhstan, Georgia, Serbia, Cyprus) and remote work

Profile

18+ years in operations, 14 of them in leadership roles, including 11.5 years with Bosch Group: rose from Import Manager to Operations Director of Bosch Thermotechnology in Russia, a **RUB 7bn (≈ USD 100m)** business with 300 employees, **18 branches and 17 warehouses**. Since 2023: Deputy CEO and Operations Director roles in electronics and HVAC distribution, e-commerce and travel.

I have run **finance, supply chain and IT**, a combination rarely found in one operations leader, so I see the business end to end: from the warehouse floor and procurement to the budget, ERP and data. I find bottlenecks, redesign processes and lock the gains into systems: ERP, CRM and AI. I move routine work to AI and build chatbots, dashboards and reports for the team myself in Claude Code and Cursor. Effective both in a multinational matrix and in owner-led mid-size companies.

Key Achievements

–50%
warehouse costs — warehouse network redesign, Bosch

–70%
accounts receivable — credit management, Bosch

+30%
inventory turnover — automated warehouse profiling, Bosch

2 months
to launch 5 warehouses (1,300 m²) for 1,200–1,500 orders/day

200+
ERP enhancements; local IT integrated into Bosch global infrastructure

500+
clients and RUB 5m+ monthly turnover — travel business with CRM and AI

Core Competencies

- **Leadership & finance:** Operations management · P&L ownership · Budgeting & financial control · Working capital & credit management · KPI frameworks · Change management · Team building
- **Supply chain:** Warehouse network design · Inventory planning · ABC/XYZ & slotting · Procurement & vendor management · Import/export, customs & freight · Marketplace fulfilment & returns
- **AI automation & digital:** Claude Code · AI assistants & chatbots · Speech analytics · Report & document automation · BPMN 2.0 · Lean · ERP (1C) · MS Dynamics CRM · SAP Hybris · ChatGPT · Cursor · Gemini

AI Business Automation

- **Deployed in business:** AI customer-support assistant (SharikTravel), AI call speech analytics (IBMM Technologies), CRM and 1C inventory accounting; ERP, CRM and e-commerce programmes at Bosch.
- **Built hands-on in Claude Code, no dedicated developer:** chatbots and a customer-care dashboard for SharikTravel, agentic file and data automation, SOPs and BPMN.
- **Daily toolkit:** ChatGPT — assistants and knowledge bases for sales and support; Claude — contract and policy analysis; Cursor — internal tools and reports from ERP/CRM exports; Gemini — analytics in Google Workspace.
- **Method:** process audit → AI use cases with measurable ROI → pilot → impact metrics → scale-up and team training.

Professional Experience

SharikTravel — Travel services, Moscow

Partner & Chief Operating Officer · *May 2025 — Present*

P&L and operating model; expansion into the premium B2C travel segment.

- Built a base of 500+ clients and sustained monthly turnover above RUB 5m.
- Automated sales and support: implemented CRM and an AI assistant that handles customer enquiries; personally built bots and a customer-care dashboard in Claude Code.
- Negotiated direct contracts with destination management companies (DMCs) across Asia.
- Built a team that runs the full operating cycle independently.

Tsvetnoy Mir — Electronics wholesale & marketplace e-commerce, Moscow Region

Deputy General Director (Deputy CEO) · *Jul 2026 — Aug 2026*

Mandate: diagnose bottlenecks and relaunch warehouse logistics for fast marketplace growth. Delivered within 2 months:

- Launched a 5-warehouse network: inter-site replenishment, location-based storage, picking for 1,200 orders/day.
- Commissioned 1,300 m² of warehouse space end to end: handheld-terminal workstations, Wi-Fi, electric forklift, CCTV, security and fire alarms.
- Ran ABC/XYZ analysis on 1,200 SKUs and re-slotted storage, placing 80% of fast-moving demand in a rapid-picking zone.
- Cut overtime and weekend pay by moving the warehouse to staggered shifts with aggregated working-time accounting for peaks of 1,200–1,500 orders/day.
- Linked 5 departments (marketplace managers, warehouse, logistics, transport, service) into one returns process; set up a dedicated service-centre and spare-parts warehouse, shortening warranty repair times.
- Moved contractors to framework agreements, lowering the cost of outsourced services.

IBMM Technologies — Electronics & instrumentation distribution, Moscow

Operations Director (project engagement) · *Jan 2025 — Jun 2025*

Mandate: optimise and automate business processes, restructure departments and tighten execution control.

- Mapped and redesigned core processes in BPMN; built a functional structure with clear accountabilities.
- Implemented 1C inventory accounting and KPIs for sales and logistics.
- Introduced AI tools, including call speech analytics.
- Rebuilt task-setting, execution control and people-management practices across departments.

Girsh PRO — HVAC equipment distribution, Moscow

Deputy General Director (Deputy CEO) · *Feb 2023 — Dec 2024*

Scope: operations, finance, legal, administration and HR.

- Revised the company strategy with department heads; introduced a regular planning and execution-control cycle.
- Documented core processes in BPMN 2.0 with control points, reporting and incentives; introduced transparent metrics.
- Personally led major deals with industrial clients through to close.

Bosch Thermotechnology (Bosch Group) — Heating, ventilation & air-conditioning, Moscow

Jun 2011 — Dec 2022 · RUB 7bn revenue · 300 employees · 18 branches · 17 warehouses

Operations Director, Head of Finance & Administration (2018–2022)
Head of IT (2016–2018)
Head of Planning (2012–2016)
Import Manager (2011–2012)

Scope: IT, procurement, logistics, finance, legal and fire safety; 25 direct reports; regular work with the German parent company. Three promotions in 11.5 years.

- Redesigned the warehouse network and halved warehouse costs.
- Reduced accounts receivable by 70% through credit management; owned the company budget.
- Improved inventory turnover by 30% with automated warehouse profiling (as Head of Planning).
- Delivered 200+ 1C ERP enhancements across sales, logistics, accounting, procurement, marketing and HR (as Head of IT).
- Led digitalisation programmes (1C ERP, MS Dynamics CRM, Hybris e-commerce) and integrated the local IT estate into Bosch's global intranet: servers, workstations and users.
- Managed domestic and international freight and customs clearance; ensured successful Federal Customs Service desk audits and financial audits.
- Owned contracts, internal and external reporting, key hires and KPIs; managed relationships with key clients, partners and government bodies.

Marubeni Auto & Construction Machinery (Marubeni Group, Japan), Moscow

Logistics Specialist · *Feb 2007 — May 2010* — logistics and supply of vehicles and construction equipment.

Education & Executive Development

- **MBA Programme in Business Management** (2025) and **Chief Financial Officer Programme** (2024) — Eduson Academy, online
- **AI Camp** (Ivan Yunitsky) — applied AI tools for business
- **Bosch LEAD** leadership programme — Bosch Thermotechnik GmbH, 2015; **Bosch Lean Management Programme**, 2019
- **Moscow State University of Civil Engineering** — Degree in Industrial and Civil Engineering
